The 5th Int'l SmartChem Conference @ ICIF China 2020

Date: 2020.9.16-17, Venue: SNIEC Hall N4&N5 Conference Room

Conference Overview

Time	Topic	Venue
15th Sep 2020 / Conference Registration		
09:30-17:00	Conference Registration	No.3 East Hall - SNIEC
16th Sep 2020 /Day 1		
13:00-17:00	Opening and Plenary: the 5 th International SmartChem Conference	N5-M51
14:00-16:00	Benchmarking Promotes Future Success - Benchmarking Practice Symposium in Petrochemical Corporations	Multi-function Hall 6+7, 3F of Office Building, Kerry Hotel
09:30-17:00	2020 High-concentration organic waste liquid, waste acid and alkali, waste gas and waste residue treatment technology seminar	N5-M50
17th Sep 2020 /Day 2		
09:00-17:00	2020 China Petrochemical Industry Development Forum	N5-M51
09:30-17:00	2020 High-concentration organic waste liquid, waste acid and alkali, waste gas and waste residue treatment technology seminar	N5-M50
14:00-17:00	Seminar on Global Chemical Regulations and Corporate Compliance Strategies	N5-M49

※The agenda was update on 3rd Sep. 2020, The organizer reserves the right to update.

Opening Ceremony of the 5th International SmartChem Conference and Main Forum

Date: 2020.9.16 13:30-17:30,

Venue: SNIEC Meeting Rm N5-M51

Time	Topic
13:30-13:40	Conference Host ——Mr. Li Wenjun, Researcher of Chemical Industry Productivity Promotion Center
13:40-13:45	Opening speech by the exhibition and conference organizer ——Vice President of China Petroleum and Chemical Industry Federation
13:45-13:50	A Macro Analysis of Intelligent Manufacturing and Industrial Internet Innovation and Development (TBC) ——The Leaders of the Ministry of Industry and Information Technology
13:50-14:10	Informatization development and application of petrochemical industry, differentiated development ideas and practices ——Mr. Li Kaiwei, General Manager, Dongming Refining & Chemical Base. Member of the Party Committee of Dongming Petrochemical Group,
14:10-14:30	Industrial big data helps China National Chemical Corporation's process industry transformation and upgrading ——Mr. Hu Zhenhuan, CEO, AP-MASCOT, CHEMCHINA Group
14:30-14:50	Practice and thinking of digital transformation boosting high-quality development of enterprises ——Mr. Li Junjie, General Manager, China Coal Shaanxi Yulin Energy Chemical Co., Ltd.
14:50-15:10	Empowering the digital transformation of instrumentation in the petroleum and chemical industries ——Mr. Jin Shudian, Chairman, Jinan Dalu Mechanism & Electron Co., Ltd.
15:10-15:30	Intelligent manufacturing consulting and diagnostic services ——Mr. Zhao Lujun, General Manager, Technology Consulting Business Center, Supcon
15:30-15:50	Technology and Best Practice of Connected Plant and Digital Transformation in Process Industry ——Mr. XU ShuiGen, General Manager, Connected Plant, Honeywell Process Solutions Greater China
15:50-16:10	Research and Practice on Processing Technology of Fast Wetting DF Preparation ——Mr. Chen Linshu, Chairman, Yangzhou Rifa Biological Equipment Co., Ltd

新材料 · 新科技 · 新装备
Innovative Materials, Technologies and Equipments

16:10-16:30	How to rapidly promote in digital marketing for industrial B2B Enterprises ——Mr. He Run, Chairman, Beschannels
16:30-17:00	Communication & End of meeting

2020 China Petrochemical Industry Development Forum

Date: 2020.9.17 09: 00-17:00,

Venue: SNIEC Meeting Rm N5-M51

Time	Topic
09:00-09:40	Challenges for China Petrochemical Trade Flow amid Intensified Global Uncertainty in International Market. ——Huang Yuqing, JLC Exclusive Vice President
09:40-10:20	Global and China Petrochemical Industry Insight and Foresight ——Tang Min, East China University of Science and Technology, Guest professor of ECUST School of Business
10:20-10:40	Tea Break
10:40-11:20	Feedstock Diversification and Downstream Selection Became the Very Key Words in Olefin Industry. —— Yu Guoliang, SINOPEC QILU Petrochemical Company Institute
11:20-12:00	How Will Aromatics Industrial Chain React to Its Rapid Booming Market Background? —— Xue Jing, JLC Senior Analyst
12:00-13:30	Free Communication Visiting ICIF China 2020
	In-depth analysis of insight and potential of energy and chemical industry featured products under the 14th Five-Year Plan policy environment
14:00-17:00	JLC workshop: Analysis of investment potential of China olefins downstream products under the 14th Five-Year Plan policy environment Marketing Research of biodegradable plastic from 2015 to 2024. Feasibility study on China filling station investment. Policy research of China natural gas market.

2020 High-concentration organic waste liquid, waste acid and alkali, waste gas and waste residue treatment technology seminar

Date: 2020.9.16-17 09:00-17:00,

Venue: SNIEC Meeting Rm N5-M50

Time	Topic
16 th September	Thematic Reports Conference Host: Zhou Yue, General Secretary, Hazardous Waste Recycling Special Committee, China Association of Circular Economy.
09:00-09:10	Welcome Speech: Jie Yubin, President, China National Chemical Information Center
09:10-09:35	Interpretation of the policies and standards of the newly revised solid waste law —— Zhang Bo, Leader of Solid Waste Administration Center
09:35-10:00	Industrial waste salt recycling process and equipment development ——Li Haoran, Associate Researcher, Institute of Process Engineering, Chinese Academy of Sciences.
10:00-10:25	Application of hazardous waste identification technology in waste treatment. (tbc.) ——Hou Songmei, director, Chemicals Testing Department, Shenyang SYRICI Testing Co., Ltd.
10:25-10:45	Tea break
10:50-11:05	The Status Quo and Countermeasures for Pollutant Control in Petrochemical Enterprises ——Ms. Huang Dan, Deputy General Manager of Innovation and Strategy Department, Sinochem Environment Holdings Co., Ltd.
11:05-11:25	Analysis of Criteria for VOC pollution controlling and its policy and regulations ——Xiu Guangli, Professor, School of Resources and Environmental Engineering, East China University of Science and Technology.
11:25-11:45	Yongyou hazardous waste ERP helps China's resource recycling

	enterprises move towards delicacy management ——Huo Song, General manager, Shanghai Guleixuntong Technology Co., Ltd.
11:45-12:00	Liquid nitrogen condensation technology in VOCs recycling- promotes standard emission in chemical enterprises. ——Wang Heng, Senior Software Engineer, Air Products.
12:00-14:30	Return to the hotel by bus and have a meal, then back to the conference
14:30-17:00	Thematic Reports
	Solid waste identification and waste salt management. ——Lv Bo, School of Environment, Tsinghua University.
14:50-15:10	Incineration technology of industrial waste salt and high-concentration organic wastewater —— Yao Jianjun, Chairman, Raschka Guangzhou Engineering & Technology Co., Ltd.
15:10-15:30	Hypersaline organic wastewater recycling, reduction and harmlessness technology and case analysis ——Tang Yehong, General Manager, Xiner Environment
15:30-15:45	Tea break
15:45-16:05	Sump oil and sludge treatment and disposal technology and application cases in petrochemical industry ——TBC
16:05-16:20	Technical difficulties and solutions on non-ferrous melting acidic wastewater treatment and re-use. ——Yang Xiaosong, Deputy Director, Department of Environmental Engineering, BGRIMM Technology Group.
16:20-16:40	Application of MVR evaporation crystallization technology in chemical wastewater zero discharge. ——TBC
16:40-17:00	Industrial waste salt recycling utilization. (tbc) —— Qi Guorui, Vice General Manager, Jingtai Environmental Protection Technology Co., Ltd.
17th September	Thematic Reports + Demand matchmaking meeting
09:00-9:25	Technology sharing of waste salt recycling in pesticide and

	petrochemical industry ——Cheng Xinyuan, Deputy Chief Engineer, China BlueStar Lehigh Engineering Corp
09:25-9:50	The successive introduction of new standards and new policies will affect and change hazardous waste and industrial salt landfills ——Jiang Taibo, General Manager, Chengdu Huanfu Technology Co., Ltd.
09:50-10:15	Chemical waste salt recycling utilization technology and case analysis. ——Han Zhengchang, Chairman, G+W Environment Engineering Corporation.
10:15-10:35	Waste sulphuric acid application situation and utilization of new technology ——Qianjun, Chairman, Jiangsu Taite Environmental Protection Technology Co., Ltd.
10:35-10:55	Tea break
10:55-11:20	Application of new technology for comprehensive utilization of waste acid and waste alkali ——TBC
11:20-11:40	Source control and end comprehensive utilization of refining sludge residue in petrochemical industry ——TBC
11:40-12:00	Mainstream technology application and comparison on domestic waste salt and acid treatment (utilization). —— Zhou Yue, General Secretary, Hazardous Waste Recycling Special Committee, China Association of Circular Economy.
12:00-14:30	Return to the hotel by bus and have a meal, then back to the conference
14:30-16:00	Demand+ Technology matchmaking meeting
16:00	Free communication & Ending

Benchmarking Promotes Future Success -

Benchmarking Practice Symposium in Petrochemical Corporations

Date: 2020.09.16 14:00-17:00,

Venue: Multi-function Hall 6+7, 3F of Office Building, Kerry Hotel

Time	Topic
14:00-15:00	Benchmarking Method and Typical Case Analysis of Petrochemical Enterprises ——Siyu Shen, CNCIC Consulting, Senior Project Director
15:00-15:30	Tea Break
15:30-16:30	How to Build a Benchmarking Information System ——Fang Gu, CNCIC Information Department, General Manager
16:30-17:00	Q&A
17:00	End of Meeting

Global chemical regulations and corporate compliance strategies

Date: 2020.09.17 14:00-17:00,

Venue: SNIEC Meeting Rm N5-M49

Time	Topic
14:00-14:40	Global Chemical Management Regulations update and Compliance Recommendations ——Minyan Liang, CNCIC Product Compliance Consulting, Project Director
14:40-15:20	Latest Developments of Hazardous Chemicals Registration and GHS in China ——Fengjiao, Liang, CNCIC Product Compliance Consulting, Project Director
15:20-16:00	Customs Clearance Regulations and Practice of Chemical Import and Export Trade ——Xia Su, CNCIC Product Compliance Consulting, Project Director, Senior Engineer
16:00-16:30	Q&A
17:00	End of Meeting
