Tap into One of the Top Marketplaces for the Petroleum & Chemical Industry

About ICIF China

Founded in 1992, China International Chemical Industry Fair (ICIF China) is co-organized by China Petroleum and Chemical Industry Federation (CPCIF)-former Ministry of Chemical Industry of China, CCPIT Sub-Council of Chemical Industry (CCPIT CHEM) and China National Chemical Information Center (CNCIC). ICIF China has built itself as a comprehensive and professional platform for companies to showcase newest products, technologies, equipment and solutions to buyers and visitors in petroleum and chemical industry.

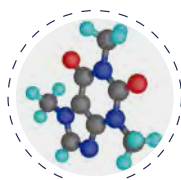

Since 2018, "China Petroleum and Chemical Industry Week" has been co-founded by organizers of ICIF China, Rubber Tech China and CHINA ADHESIVE & TP EXPO to establish a whole-chain purchasing and business platform for the industry. The overall scale will reach 100,000 sqm and over 2000 exhibiting companies and over 60,000 visitors will be expected to come to CPCIF to do business, exchange ideas and learn new tendencies.

EXHIBITS PROFILE

Petrochemicals & Energy Chemicals

Crude oil, naphtha, condensate, light hydrocarbon, solvent oil, paraffin and petroleum product additives, asphalt, bulk petrochemical products, shale gas, LPG, LNG, oilfield associated gas, coal bed methane, coke oven gas, coal chemical industry, hydrogen energy and related products, chemical energy storage, new energy chemical industry

New Chemical Materials

Organic fluorine/silicone materials, engineering plastics, modified plastics, high-performance separation membrane materials, high-performance fibers, epoxy resins, high-performance resins, polyurethane materials, high-end polyolefin materials, special materials for automobile and aerospace, military and special environmental materials

Chemical Technologies and Equipment

Industrial gas preparation equipment, pumps, valves, pipe fittings and other general equipment, fluid transmission and heat exchange equipment, refrigeration equipment, drying / separation and filtration equipment, control / analysis and detection instruments, powder and screening equipment, sealing equipment and accessories, instruments and meters, chemical assembly sets

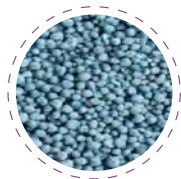

Chemical Packaging, Storage & Transportation

Packaging: IBC ton barrel, plastic barrel, PE valve pocket, paper plastic composite bag, plastic woven bag, liquid bag, container inflatable bag, stainless steel container, plastic pallet, wooden pallet, turnover box, bottle cap, label, cleaning system and packaging equipment

Storage and transportation: chemical logistics, storage equipment, tank design and engineering, professional warehouse, tank farm, port, storage yard

Hazardous Chemicals logistics technology and equipment

Basic Chemicals

Inorganic and organic chemicals and raw materials, barium salt, magnesium salt, potassium salt, boron compound, borate, bromine compound, chromium salt, cyanide, fluorine compound, phosphorus compound, phosphate, silicon compound and silicate, nitric acid, sulfuric acid, hydrochloric acid, soda ash, caustic soda, calcium carbide, activated carbon, carbon black, titanium dioxide

Fine and Specialty Chemicals

Surface active agents, catalysts, chemical reagents, fine organic chemical raw materials and intermediates, ion exchange resins, agrochemicals, daily chemicals and cleaners, biological chemicals, water treatment chemicals, feed and food additives, plastic additives, special additives, outsourcing / custom synthesis / processing chemicals, flavors and fragrances, fluorescent whitening agents, auxiliary, electronic chemicals, leather chemicals, oilfield chemicals and other special chemicals

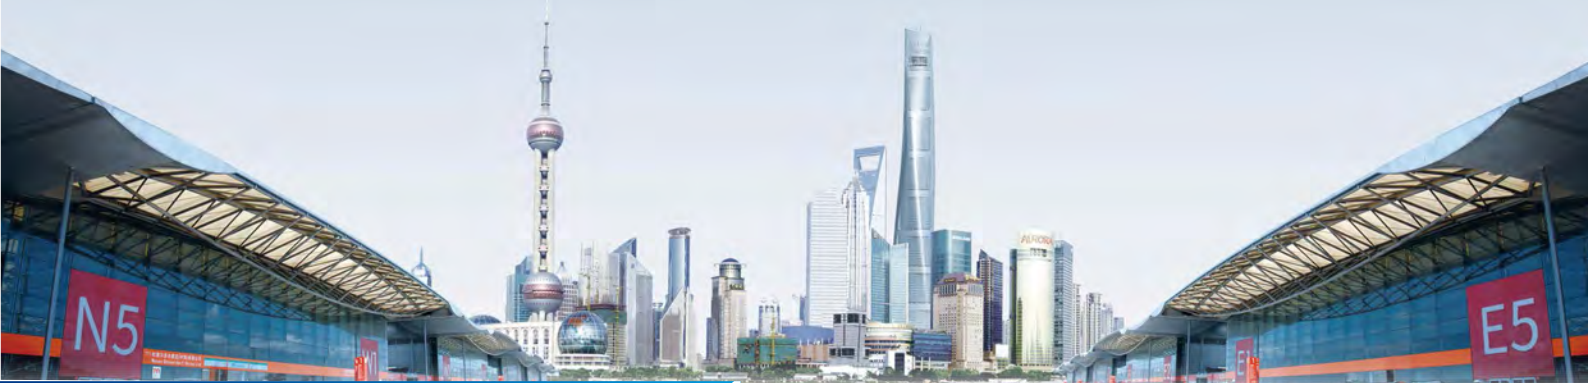

Chemical Safety and Environment Protection

Chemical environmental protection technology and equipment, solid waste treatment, VOCs, soil remediation, environmental engineering and comprehensive solutions, chemical safety production/monitoring/emergency prevention and control technology and equipment, safety protection products, explosion-proof electrical and equipment

SmartChem and Intelligent Manufacturing

intelligent manufacturing technical equipment, processing automation, intelligent packaging/logistics and storage, information and network security control, manufacturing process management informatization, data interconnection, smart factory / digital chemical plant, industrial Internet, Internet of things, cloud platform, intelligent robot, big data, 5G, cloud computing, digital software and solutions, artificial intelligence, edge computing, digital twinning, sensors

Why ICIF China?

Key Industry Leaders

Top industry players from petrochemical, refining and energy chemical industry gather together to showcase newest products and technologies, representing current development level and strength of Chinese petrochemical industry.

High-Quality Professional Buyers

Producers, traders and distributors from petrochemical industry, printing, dyeing, textile, medicine, food, chemical fiber, papermaking, metallurgy, daily chemical, agrochemical, rubbers, energy industry and coatings, etc come to purchase, look for new suppliers and exchange ideas at ICIF China.

Professional Activities

The 6th Int'l SmartChem Conference will continue to be held alongside ICIF China to discuss hot issues on smart manufacturing, informationization and digital upgrading of the industry. Besides that, a series of technical seminars and workshops focusing on different topics will open to participants also onsite.

Strong Alliance

Co-organized by three authoritative institutions in petrochemical industry in China: CPCIF, CCPI CHEM and CNCIC.

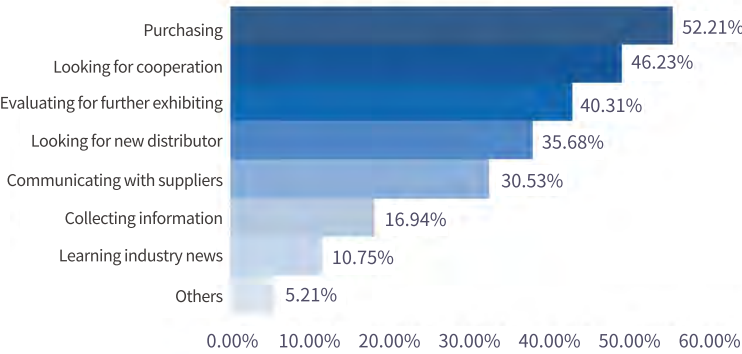

One-Stop Platform

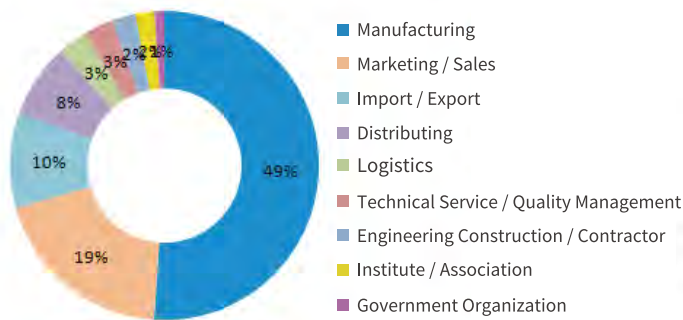

CPCIW covers the whole chemical industry chain including petrochemical, energy chemical, basic chemicals, material chemicals and related technologies, equipment and solutions.

Visitors' Analysis

Visiting Purposes

Visitors' Branches

88% of visitors are involved in purchasing decisions in their company
 79% of visitors are from management positions of their company

* Based on pre-registered visitor data of ICIF China

PARTICIPATION FEE

	PREMIUM SHELL SCHEME	STANDARD SHELL SCHEME	RAW SPACE
Zone A	USD 2, 650 / 9 sqm	—	USD 210 / sqm (Min: 36 sqm)
Zone B	(Min: 9 sqm)	USD 2, 250 / 9 sqm (Min: 9 sqm)	USD 190 / sqm (Min: 36 sqm)
Zone C	—	USD 2, 100 / 9 sqm (Min: 9 sqm)	—
